Location: India

Professional Summary

- Detail-oriented Java Developer proficient in backend development, API integration, and database optimization.
- Skilled in Java, Servlets, RESTful APIs, MySQL, and object-oriented programming.
- Experience in full-stack development with strong knowledge of SDLC, Agile methodologies, and debugging techniques.
- Capable of designing scalable, high-performance applications with efficient data structures and algorithms.
- Strong collaboration, problem-solving, and analytical skills for high-quality software delivery.

Technical Skills

Programming Languages: Java, SQL, HTML, CSS, JavaScript, ReactJS

Backend Technologies: Java Servlets, RESTful APIs, JDBC

Frameworks: Spring Boot, Express.js, Bootstrap

Database Management: MySQL, Oracle

Development Tools: Eclipse, VS Code, Postman, Git, Tomcat

Software Development: Agile, SDLC, Microservices, MVC Architecture

Projects

E-Commerce Web Application - Riyality Software Services (May 2024 - Present)

Role: Backend Developer

Description: Developed a high-performance e-commerce platform enabling product catalog management and secure transactions.

- Designed and implemented RESTful APIs using Java Servlets and MySQL for efficient data handling.
- Implemented authentication, session management, and payment integration for seamless transactions.
- Optimized database queries, reducing response time by 40% and improving scalability.
- Ensured cross-browser compatibility and mobile responsiveness for enhanced user experience.

Environment: Java, Servlets, MySQL, RESTful APIs, HTML, CSS, JavaScript, Tomcat

Employee Management System - Freelance (Feb 2025)

Role: Full-Stack Developer

Description: Engineered a web-based employee management platform streamlining HR operations.

- Developed robust CRUD functionalities using Java Servlets and MySQL, reducing manual data entry by 60%.

- Integrated role-based access control ensuring data security and user authentication.
- Implemented indexing and normalization techniques to enhance database performance.
- Deployed and tested the application on Apache Tomcat for seamless production rollout.

Environment: Java, Servlets, JDBC, MySQL, RESTful APIs, Apache Tomcat, HTML, CSS, JavaScript

Education

Bachelor of Technology (B.Tech) in Computer Science

Dr. Babasaheb Ambedkar Technological University (DBATU) | Year of Graduation: 2025

Certifications

- Web Development Certification - Technohacks (December 2023)
- Postman API Certification - Postman (2024)
- Full Stack Developer Certification - Riyality Software Services (2025)
